PROGRAMME

Keynote speaker I: Carl Wu (Janelia Farm Research Campus, HHMI, USA)
Keynote speaker II: Tom Misteli (National Cancer Institute, NIH, USA)

Session: Nucleosome and chromosome structure
Geneviève Almouzni, (Institut Curie, France)
Geeta Narlikar (UCSF, USA)
+ Two shorter talks selected from the participants

Session: Epigenetic modifications and chromatin remodelling
Toshio Tsukiyama (Fred Hutchison cancer, Seattle, USA)
Tony Kouzarides (Gurdon Institute, Cambridge, UK)
+ Three shorter talks selected from the participants

Session: 3D organization of chromosomes
Bing Ren (Ludwig Institute, La Jolla, USA)
Job Dekker (University of Massachusetts Medical School, USA)
Giacomo Cavalli (Institute of Human Genetics, France)
+ Two shorter talks selected from the participants

Session: Organisation of chromosomes and nuclear compartments
Susan Gasser (Friedrich Miescher Institute, Basel)
Nick Gilbert (Institute of Genetics and Molecular Medicine, Scotland)
Ana Losada (CNIO - Spanish National Cancer Research Centre -, Madrid, Spain)
+ Two shorter talks selected from the participants

Session: DNA Replication
John Diffley (Cancer Research UK, London)
Marcel Méchali (Institute of Human Genetics, Montpellier, France)
Anja Groth (BRIC, Copenhagen, Denmark)
+ Two shorter talks selected from the participants
Session: Genome stability, DNA repair and recombination
Andrés Aguilera (CABIMER, University of Sevilla, Spain)
Monsef Benkirane (IGH, Montpellier, France)
+ Three shorter talks selected from the participants

Session: Nuclear RNA
Ramin Shiekhattar (Miller School of Medicine, Miami, USA)
Shiv Grewal (National Cancer Institute, Bethesda, USA)
Jesper Svendsen (CRUK, London, UK)
+ Two shorter talks selected from the participants

Session: Transcription and post-transcriptional processes
Eileen Furlong (EMBL, Heidelberg)
Karen Adelman (NIEHS, North Carolina, USA)
Eran Segal (Weizmann Institute, Rehovot, Israel)
+ Two shorter talks selected from the participants

Session: Developmental processes
Asifa Akhtar (Max Planck Institute, Munich, Germany)
Miguel Beato (Centre for Genomic Regulation CRG, Barcelona, Spain)
Claire Rougeulle (University Paris-Diderot, France)
+ Two shorter talks selected from the participant

Session: Reprogramming, Nuclear Diseases and Senescence
Kathrin Plath (UCLA, USA)
Shelley Berger (Pennsylvania University, USA)
Stefan Mundlos (Max Planck Institute for Molecular Genetics, Germany)
+ Two shorter talks selected from the participants

Session: Reshaping the genome
Andras Nagy (Mount Sinai Hospital Lunenfeld-Tanenbaum Research Institute, Toronto, Canada)
+ Three shorter talks selected from the participants

Session: Genome domains and Genomics
Doug Higgs (Weatherall Institute of Molecular Medicine, Oxford, England)
+ Three shorter talks selected from the participants
